

Personal Letter Assignment

Each person should write a personal letter directly to me stating how the group worked together. Specifically, address responsibilities, cohesion, lessons learned, issues and suggestions for how to make the project better. Also, assess how each member performed, including a self-assessment. This can be covered in 1-2 pages, and is worth 10 points to you. Please hand me a hard copy of this confidential letter directly to me the day of your presentation.
