

Mr. Goodman Posing the Mirror Question (0.41 minutes)

Mr. Goodman: I want you to try to figure out where the mirror would go in order to see this combination. You follow me? Now we're looking from above, this is the top of it here, so the mirror will appear as a line. You have to see where it would go and at what angle. So get out a piece of paper to write and draw on, and I want you to figure out where the mirror needs to go.
